SERVICES WHICH THE TRUST MAY RENDER TO THE PUBLIC, WITH EXPLANATIONS, AND THE CONDITIONS AND CHARGES ATTACHING TO SUCH SERVICES.

1. GOODS TENDERED TO THE TRUST FOR CUSTODY.—(a) For the convenience of its clients, whether importers, exporters or steamer agents, the Port Trust provides and polices accommodation, covered or uncovered as required, for imports in process of transit between ship or lighter and cart or wagon, and for exports in the reverse direction.

(b) But goods so accommodated do not come into the hands of the Trust, as a bailee, as contemplated in section 41 (1) of the Madras Port Trust Act, unless and until a receipt relating thereto as specified in section 40 (1) of the Madras Port Trust Act, shall have passed from the trust to its client.

(*c*) Goods tendered for custody to the Trust as bailees, by importers, exporters or steamer agents, must be tendered at the place or places appointed for the purpose by the Trust, who, in the case of exports, will not move the goods for shipment until the receipt given for them, or a receipt of equivalent validity, shall have been handed to the Trust by the exporter.

2. BOARD'S OPTION TO PERFORM SERVICES.—(*a*) *To carry goods by water.*—Under section 39 of its Act the Board has the option to land, ship or tranship goods between vessels in the port and its wharves, piers or docks. But the Board does not at present perform any such services.

(*b*) *To take charge of goods for delivery of shipment.*—Under section 39 of its Act, the Board has the option to undertake the reception, removal, porterage or storage of goods brought within its premises. For goods so taken charge of the Board is bound, under section 40 (i) of its Act, to give a receipt. But at present it does not take charge of the following classes of goods, all of which lie at owners' risk whether in the open or under such shelter as may have been placed at owners' disposal by the Board, viz.:—(i) exports for which a receipt has not been granted, (ii) iron and steel landed in the boat basin Board's combustible permit, (iv) Government stores and (v) the classes of goods enumerated in paragraph 3 (*a*), *i.e.*, free goods, coal, coke, ashes, stone, ores, explosives, firewood, kerosine, bulk oil, empty oil cases, redwood, timber, and all goods landed outside the harbour.

3. PORTERAGE.—(*a*) *Of imports.*—The rates given in the scale cover porterage by the Trust, except in the case of free goods, coal, coke, ashes, stone, ores, explosives, firewood, kerosine, bulk oil, empty oil cases, redwood, timber, and all goods landed outside the harbour. But if, at the request of importers, any of the goods just mentioned are handled by the Trust, it will levy an additional charge equal to the actual cost incurred in such handling, with 4 annas per ton, as a minimum and also cranage charges if incurred, but will accept no responsibility in respect of such cargo. Whenever the Port Trust relinquishes the porterage of non-dutiable coasting cargo, the rates of harbour dues on such cargo will be 4 annas less than those quoted in the above scale of rates; this reduction will not, however, apply to the exceptions given above. Whenever the Port Trust relinquishes the porterage of iron or steel, consigned to others than to Government, the rate of harbour dues thereon will be 9 annas per ton less than that quoted in the above scale of rates.

(*b*) *Of exports.*—In order to avoid the confusion that must occur if the trollying of such exports as require to be trolled over the Trust's lines is left to be done by exporters themselves, the Trust performs this work for the exporter, charging for it by a 4-annas per ton rate on all goods so trolled—a rate which also covers the cost of craning into lighters when necessary. Exports so handled do not, however, come into the custody of the Trust but remain at the risk of the exporter, unless, as a special case, a receipt shall have been granted as provided in section 40 (1) of the Madras Port Trust Act.

4. SPECIAL PORTERAGE.—For porterage done by the Trust and not covered by harbour dues, the charge will be the actual cost to the Trust of such porterage, with 4 annas per ton as a minimum.

5. MINIMUM CHARGE.—If the aggregate of all charges payable to the Trust in respect of any one consignment shall amount to less than 4 annas, a charge of 4 annas will be levied for that consignment.

6. GOVERNMENT STORES.—For all Government stores, except opium and stores of the descriptions enumerated in paragraph 3 (*a*), a uniform rate will be charged of Rs. 2 per 20 cwt., or per ton of 50 cubic feet, inclusive of all cranage. This rate does not include storage, which will be levied at the usual rates. Whenever the Port Trust relinquishes the porterage of the Government stores referred to, the rate of harbour dues for such stores will be Rs. 1-12-0 per ton instead of Rs. 2. The baggage of troops embarking and disembarking will be covered by a charge of 4 annas per head on soldiers and followers. All regimental and mess stores and officers' chargers will be charged at schedule rates.

7. STORAGE, ORDINARY.—(*a*) *Imports.*—On goods not cleared within the four days following the date on which the vessel concerned shall have completed discharge of her cargo, and excluding Sundays and Chamber of Commerce holidays, storage will be charged at the following rates:—

For the 1st week or portion thereof one-fourth of the rates given in the above scale.
For the 2nd week or portion thereof, half of such rates.
For each of the 3rd and following weeks, or parts thereof, three-fourths of such rates.

(*b*) *Exports.*—For goods stored in the eastern export shed, a charge of Re. 1 *per diem* will be made for each space of 150 square feet or part thereof for the first week after the expiry of four free days, and excluding Sundays and Chamber of Commerce holidays. For the second week, double the rate for the first week will be charged. For the third and subsequent weeks treble the rate for the first week will be charged. After the free days, small consignments, or individual packages, will be charged at the rate of 1 anna per package per day for the first week, 2 annas per package per day for the second week and 3 annas per package per day for the third and subsequent weeks. But only half the above rates will be charged when export goods are stored in the open, or in what are known as the old or western, export sheds. No free days will be allowed for goods brought for export into the Trust's premises but subsequently removed without having been shipped.

(*c*) *Conditions.*—After storage charges begin to accrue, no allowance will be made for Sundays or holidays. Half storage rates will be charged if goods are stored in the open without covering of tarpaulin or roof. Goods remaining uncleared at the expiry of the free days will be liable to a removal fee of 4 annas per ton, if shifted by the Port Trust in the interests of cargo generally.

8. STORAGE, SPECIAL.—(*a*) Persons requiring storage space on the Trust's premises, at *special storage* rates, may obtain it, if available, by making prior application, in writing, for a permit in the form prescribed by the Trust from time to time. But it will be in the Trust's discretion to consent or to refuse to allot such space. If allotted, the conditions and charges will be:—

(*b*) For rough goods stored in the open, such as coal, coke, minerals, timber, scrap iron, firewood, redwood, stone, etc., at the rate of 2 annas per day, per 1,000 square feet allotted, or portion thereof.

(*c*) For cargo stored in the export sheds, at the rate of Rs. 4 per calendar month or portion thereof, per 100 square feet allotted, or part thereof.

(*d*) In applying to be let stora goods on space available for rent on these terms, owners must state that, in consideration of the reduced rates, they accept all risks and responsibility for such goods.

(*e*) The occupation of space under these terms will be subject to the conditions set forth in the permit. In the absence of the permit, *ordinary storage* rates will be charged.

(*f*) Timber despatched by rail may be free for five days exclusive of Sundays and Chamber of Commerce holidays at the railway-vehicle loading ground, in the timber yard, after which it will pay 4 annas per day, per 100 square feet or part thereof occupied.

9. IRON AND STEEL.—(*a*) After allowing for such free days, exclusive of Sundays and Chamber of Commerce holidays, as the Trust may see fit to grant, the following charges per ton per day will be made for the storage of undelivered balances of consignees' iron, as worked out from day to day :—

First month	.. ..	½ pie	Third month .. .. 2 annas.
Second month	.. ..	1 anna.	Later months .. .. 4 ,,

Note.—The first month commences from the date of the sailing of the vessel concerned.

(*b*) If, in the interests of the Trust's business, it is found necessary to shift any of such iron or steel, the charge to the consignee for its removal will be 8 annas per ton for each shift.

(*c*) Iron or steel remaining unremoved, beyond the end of the day following delivery, will have to pay 8 annas per day (1 part of a day for each 100 square feet or part thereof occupied.

10. CRANAGE.—(*a*) For the cranage of goods at any wharf, pier, dock, head or building in the possession or occupation of the Board, the charge for each package, by weight or measurement, will be as follows:—

		Rs.	A.	P.	
Up to 1 ton	at the rate of	0	4	0	per ton per hoist.
Over 1 ton and up to 2 tons	,, ...	1	8	0	,, ,,
Over 2 tons and up to 5 tons	,, ...	3	8	0	,, ,,
Over 5 tons and up to 10 tons	,, ...	4	8	0	,, ,,
Over 10 tons and up to 15 tons	,, ...	5	0	0	,, ,,
Over 15 tons	,, ...	6	0	0	,, ,,

(*b*) But when a rate, in the scale, as quoted per package or per animal, it includes all cranage.

(*c*) All goods passed out over the export pier, or passed in at the boat basin iron yard, and all timber other than scantlings landed in the timber pond, will pay 4 annas per ton cranage, whether the cranes that have been provided for such goods are used or not. Cranes hired for loading timber into or out of railway wagons at the light house timber yard, will be charged for at the rate of one rupee per crane per hour or part thereof.

11. RAILWAY VEHICLES.—(*a*) *Hire.*—Hire charges accruing on vehicles employed in the harbour premises and billed for by the owning Railway will be collected by the Trust on behalf of the Railway.

(*b*) *Haulage.*—Vehicles hired from a Railway will be hauled by the Trust, on behalf of the hirers, at the rate of 2 annas per ton of marked wagon capacity for each round trip.

(*c*) *Demurrage.*—When railway vehicles, that have been made over by the Trust to firms or to individuals for loading or unloading, are detained beyond the period specified for such work by the Trust from time to time, such firms or individuals shall pay to the Trust any demurrage charges for which the latter may become liable to the railways in consequence of such detention, according to the railway demurrage scale.

(*d*) *Railway terminal or harbour charges.*—For all goods entering or leaving the harbour premises in railway vehicles, with the exception of crude ores, coal and kerosine oil, the Railways when collecting their freight from the consignees on behalf of the Trust will also collect the sum of 2 pies per maund as "harbour charges" and will remit it to the Trust at the close of each month. In the case of the exceptions just referred to, half the above rate will be recovered. Should goods require to be craned into or out of railway wagons, the cost of such operation will be recovered by the Trust direct from the consignees or consignors, as the case may be, under paragraph 10 (*a*) above.

(*e*) On export produce railed in from the railway companies' local godowns for direct shipment to steamers lying alongside a wharf, in quantities of not less than 500 tons to each steamer, the railway terminal or harbour charges will be 1½ pies per maund.

12. TRANSHIPMENT.—Goods manifested for transhipment, and transhipped, from ship to ship, whether directly or via the shore, will pay only quarter harbour dues. When handled by the Trust, such goods will pay a further sum of 4 annas per ton for each operation, either in or out. Cranage will not be charged on such goods. Coal or petroleum fuel which has paid harbour dues on landing may be reshipped free of dues. If the tonnage of transhipped goods cannot otherwise be readily ascertained dues will be levied on the tonnage of the lighter or other craft conveying them.

13. OVERTIME WORKING.—Steamer agents, who require cargo to be handled by the Trust outside the ordinary working hours, shall put in a regular application for such overtime working, not later than 4 P.M. on the same day, or in the case of Sundays and holidays on the previous working day, and shall pay to the Trust overtime fees on the following scale, whether subsequently they offer cargo during such outside hours or not.—

Place where cargo is tendered	Working days per hour	Sundays and gazetted holidays.	
		For half a day	For a full day
	As.	As.	As.
South sea end ship-wharf	20	30	40
Old ocean pier	10	15	20
Double import pier	10	20	30
Export pier	6	10	24

14. REFUNDS.—(*a*) *Imports.*—Applications for refunds of dues paid on imports, or on goods intended for import but not landed, will not be considered unless submitted within three months from the date of the arrival of the vessel from which the goods in question were landed or intended to be landed.

(*b*) *Exports.*—Applications for refunds of dues paid on exports, or on goods intended for export but not shipped, will not be considered unless submitted within one month from the date of the departure of the vessel concerned, and in the case of unshipped goods refunds will only be made after the goods in question shall have been removed from the Trust's premises and on proof of short shipment.

(*c*) *Exports that have not entered the Trust's premises.*—Claims for refunds of dues paid on goods intended for export but that have not entered the Trust's premises, must be made within three months from the date of the departure of the vessel referred to in the application for permission to ship.

FINANCE DEPARTMENT.

No. 5471-C.S.R.

Simla, the 6th September 1911.

RESOLUTION—By the Government of India, Finance Department.

Read—

Resolution by the Government of India in the Finance Department, No. 2998-P., dated the 16th May 1907.

Despatch from His Majesty's Secretary of State, No. 91-Public, dated the 18th June 1909.

The Government of India consider it desirable to call attention to the orders of the Secretary of State for India requiring officers on leave out of India to obtain his sanction before taking up private employment. They have further decided to extend the authority granted to Local Governments in the Resolution above cited to permit officers on leave to accept employment outside Government service. The Governor General in Council is accordingly pleased to revise as follows the orders contained in that Resolution.

2. The Government of India desire to repeat that inasmuch as leave is intended as a period of recreation and rest and is granted to an officer for the purpose of recruiting his health, it follows that taking up employment during leave is not permissible save in exceptional circumstances and with special sanction.

3. A gazetted officer who is in receipt of furlough or leave allowances must obtain, if he is resident out of India, the previous sanction of the Secretary of State, or if resident in India, that of the Local Government, or (if he is serving under the Government of India) of the Government of India, before taking service under an employer other than Government or accepting any employment, not being under Government, which involves the receipt of a fee or honorarium. In the case, however, of a non-gazetted officer resident in India the special permission of the officer empowered to appoint him may be accepted as sufficient authority.

NOTE.—This condition is not to be held to apply to the receipt of fees for literary work or for services as an Examiner, or to similar employment.

4. The orders contained in the preceding paragraphs refer to the acceptance of employment of any description whatever, not being employment of the kind for which the Foreign Service Rules in Part VII of the Civil Service Regulations provide. An officer in receipt of leave allowances cannot take up an appointment which is such as should, for public reasons and not merely in his own interests, be filled by a servant of Government, unless he has been transferred thereto in the regular way by the authority empowered to authorise the transfer under the rules regulating transfers to Foreign Service. An officer who has been so transferred ceases, from the date on which he takes up the appointment, to be on leave and is no longer entitled to draw leave allowances from Government. He becomes an officer in active service drawing from his employer pay fixed in accordance with rule.

(4) In rule 56, after the word "jewellery" the words "currency notes or any portion thereof", shall be added, and to the explanation below that rule the following sentence shall be added :

THE MADRAS VETERINARY COLLEGE PROSPECTUS.

As there appears reason to believe that intending candidates for employment in Government service are in many cases not aware of the existence of the Madras Veterinary College and of the prospects offered by a veterinary career, the following prospectus of the college is published for general information. The rules of the college and the scale of the provincial and the subordinate veterinary service are liable to be altered if need requires at any time :—

1. The college affords theoretical and practical instruction in subjects appertaining to the veterinary profession with the object of training men for service under Government, Municipalities, Local Board or private employers. The staff of the college consists of a Principal, an Assistant Principal, three lecturers and a subordinate establishment. The responsibility for the discipline and management of the college is vested in the Principal who is subject to the control of the Board of Revenue. Full clinical and other facilities are afforded to meet the educative requirements of students preparing for the diploma in Veterinary Science. A Veterinary hospital, museum, library, shoeing forge and students' hostel are attached to the college.

2. Candidates are eligible for admission without distinction of caste or nationality. They must not be under 16 years of age at the commencement of the term for which admission to the college is desired. Students are admitted to the college by selection which will be made by the Principal. Applications for admission should be made in writing in the prescribed form, printed at the end, and they should be submitted so as to reach the Principal not later than the 5th December of each year and should be accompanied by the following certificates :—

(a) of age,

(b) of physical fitness and moral character,

(c) that the applicant has passed the Matriculation Examination of an Indian University, or that he has obtained 40 per cent. of marks in English and 33 per cent. in other subjects in the School Final Examination, except in the case of Europeans and Eurasians who may be admitted, though unpassed, at the discretion of the Principal.

3. In the event of a candidate being selected, he will be served with a special notice informing him of the particular day and hour when and the place at which, he should present himself for personal selection. Candidates when admitted will be considered to be on probation for the first two months of the course and may be removed if found to be not satisfactory.

4. *Course and study and curriculum of instruction.*—The course of study for the diploma ordinarily extends over three years. The students of each year's course form a separate class. The number of students in each class is ordinarily limited to 20. Promotion from one class to another is made with reference to the results of the annual examinations. A student who fails in the class examination for two consecutive years is liable to be removed from the college.

The curriculum of instruction is as follows :—

(i) *First year*—

(1) Anatomy (up to Arthrology).
(2) Elementary Chemistry.
(3) Elementary Botany.
(4) Materia Medica.
(5) Handling of animals.
(6) Pharmacy (Theoretical and Practical).

Students who hold the diploma in Agriculture are not required to attend the first year's course of study, but are examined in the subjects of both the first and second year courses at the end of their first year of attendance at the Veterinary College.

All students are required to undergo a course of equitation and gymnastics. A student absenting himself without leave from a lecture or from a practical, gymnastic or riding class is liable to be fined.

5. *Tuition fee and stipends*—Tuition will be free but a fee of Rs. 2 per term is payable by each student to meet the cost of sports. Government ordinarily allot ten scholarships annually each of the monthly value of Rs. 10 in each class, but reserve the right to decrease the number or alter their value, if necessary. Scholarships in the first year will be awarded by the Principal on the results of the first three monthly examinations. Scholarships tenable in the higher classes are ordinarily allotted on the results of the monthly and annual examinations. A student already in the enjoyment of a scholarship from a local body or a private person is not eligible to compete for a Government scholarship. All scholarships are conditional on the good behaviour of the holders. Students who are in the enjoyment of the Government scholarships are required to refund the amounts which they have received if they leave the college without sanction or are expelled for misconduct.

6. In consideration of the free tuition given at the college, graduates will be required to execute an agreement binding themselves to serve Government in the Civil Veterinary Department for at least five years if their services are required so long, and to refund to Government the total cost of their veterinary education in case they are unwilling to serve Government as required.

7. *Terms and time-table.*—Each year comprises two terms—a spring session from January to March and an autumn session from July to December. Tables of the times and subjects of lectures to which both teachers and students should adhere will be posted on the notice board at the commencement of each term.

8 *Vacations and holidays*.—(1) In addition to the miscellaneous public holidays, the students are allowed the following vacations and holidays :—

Midsummer vacation (three months),

Michelmas holidays (one week),

Christmas and Easter holidays (gazetted).

Students are required to attend hospital cases in turn during vacations.

(2) Leave of absence is granted by the Principal only. Scholarship-holders may, at the discretion of the Principal, be granted casual leave, with allowances, for not more than five days at a time or ten days in the year, but no casual leave will be granted in continuation of other holidays with allowances. Any further leave to scholarship-holders except sick leave for a month will be subject to stoppage of scholarship. Leave of absence in each case of illness will be recognised only on the production of a certificate from a duly qualified medical practitioner.

9 *Examinations*.—Examinations are conducted orally and are held annually in December in all the classes. For admission to the examination candidates must have studied at the college for such time as may be prescribed and have attended at least three-fourths of the year's lectures and have done practical work in their respective classes.

10. *Diplomas and certificates*.—A diploma as graduate in Veterinary Science is awarded to students who have gone through the full course of three years' study at the college and have passed the final examination.

Such of the students as are elected clinical clerks and prosectors and perform their duties satisfactorily are, in addition, awarded special certificates on passing the final examination.

11. *Miscellaneous*.—The hostel attached to the college provides accommodation for 23 students. Students are at liberty to make their own arrangements as to their board and lodging. A monthly rent of Rs. 1 for a single room and As. 12 for a double room, *i.e.*, a room accommodating two students, will be charged from each student who elects to take up his lodging in the college hostel.

12. *Prospects of students who pass out of the college*.—Graduates of the college are eligible for appointment to the following posts in the provincial and subordinate services of the Civil Veterinary Department in the Madras Presidency :—

Three Deputy Superintendents on Rs. 200 per mensem rising by annual increments of Rs. 25 to Rs. 400 per mensem.

Six Veterinary Inspectors (First Grade) on Rs. 100 per mensem rising by annual increments of Rs. 4 to Rs. 120 per mensem.

Seventy-nine Veterinary Assistants (Third Grade) on Rs. 30 per mensem rising by annual increments of Rs. 4 to Rs. 50 per mensem.

While so employed, they will also be provided with free quarters or granted in lieu thereof a house-rent allowance not exceeding Rs. 5 per mensem.

All the above posts are pensionable. Veterinary graduates have, in addition, fair prospects of employment as Municipal Cattle Inspectors and as Assistants in charge of Veterinary Dispensaries established by local bodies, private proprietors and Native States. EXTRACT OF A REPORT ON THE USE OF THE "SCRUB ERADICATOR" *MANUFACTURED BY MESSRS JOHN FLEMING, BOMBAY, FOR REMOVING VEGETATION FROM ANCIENT BUILDINGS.

Vegetation which attacks historical buildings may be divided into two classes:

(1) Young vegetation, such as grass, creepers, etc., with tender sappy stalks merely on the surface of the buildings and which has not penetrated deeply into the joints of masonry.

(2) Pipal, banian or other trees whose roots have become deeply embedded causing stones to be displaced and thereby endangering the structure.

Both class 1 and 2 may be further sub-divided for purposes of clearness into

(*a*) Vegetation which grows on a horizontal surface.

(*b*) " " " vertical "

It is evident that class 1 (*a*) should be the easiest to remove and it is for it that this Scrub Eradicator has been found effective.

For class 1 (*b*) the Eradicator may be pumped into the joints by means of a syringe (this has been most successful at Jeunpur) and the joints should then be filled with good sound cement. It is a waste of the Eradicator to sprinkle it down the face of the wall with a watering can trusting that some of the liquid will find its way into the joints affected.

For class 2 (*a*) and 2 (*b*) the best course to pursue is to dismantle carefully the part affected, remove the vegetation by hand, and rebuild while taking the utmost care by means of marking or photographing if necessary, to ensure the stones being replaced in their former positions.

It has been found for this kind of vegetation that a very large quantity of Eradicator is required which has to be applied at intervals and moreover the vegetation is not permanently destroyed. The Eradicator, if applied from outside, cannot soak down to the farthest extremity of the root, and, consequently, although the latter may be partially killed, it nevertheless re-asserts itself in a different direction.

For class 2 (*b*), if the vegetation has reached the size of small trees, as is often the case, the following methods of applying the Scrub Eradicator have been tried:

(1) 'Ringing' the trees and applying the Eradicator all round so that the circulation of the sap may be checked.

(2) Drilling holes in the stumps of the trees (their tops having been previously cut off) and pouring in the Eradicator.

(3) Boring holes at the base of the trees and pouring in the Eradicator. In the Bellary district banian roots were killed by making ¼" slits in the roots about 3" in length and introducing the Eradicator into the slit in a pasty form. But the roots in this case were on the surface of the wall. Officers seems unanimous as to its inefficacy for killing strong vegetation.

Summary.

The use of Eradicator must be largely left to the direction of the local officer. It is in certain cases a waste of time and money to use it; but it may be possible elsewhere to dismantle partially the masonry and then to use the Eradicator. It is no use attempting to kill the vegetation unless the furthest extremities of the roots are reached. These should be effectively ringed or stumped. In cases, however, where masonry has been made to bulge outwards by vegetation there is nothing to be done but to take down the part affected and to rebuild it after the removal of the growth. After vegetation has been removed from joints in a vertical position, the joints should be filled tight with good cement to within ¼" of the face of the masonry. A good plan after removing vegetation from the tops of walls, domes, or other places invisible from below is to fill the cavities which are left with boiling tar, which may be dashed with coarse gravel before hardening.

It would seem desirable, therefore, from a study of the opinions which have been expressed in the matter, that the Eradicator should be less extensively used and only for smaller vegetation which comes under class 1 (*a*) and 1 (*b*). The checking of the growth of the latter in its earliest stage, especially of the pipal and banian seedlings, cannot be too strongly urged. Frequent inspections of buildings to watch for vegetation alone are absolutely essential.

* Directions for use—

Mix the composition with its own bulk of water and apply freely with a watering can or coarse 'rose' to the vegetation, roots, etc., to be removed.

In cases, however, where the climate is very moist and the masonry perhaps damp, it will be desirable to apply the composition undiluted. It must penetrate well down to the roots in order to kill these, and in very deep rooted 'scrub', it will be well to apply it two or three times over.

The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the Rain Gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 11·62 inches, the average due for the same period being 18·75 inches.
